Tour of SF Civic Center

Thursday, September 14, 2pm - 3:30pm. Join MAX for a guided tour of the San Francisco Civic Center, a local and national treasure. It has the largest collection of monumental municipal buildings in the United State, creating the most complete civic center of those contemplated at the beginning of the 1900s. The Civic Center is an outstanding achievement of the City Beautiful Movement. Designed in 1912 with construction started on the domed City Hall in 1913, it is been a work in progress ever since. Tour includes a visit to the Beaux Arts City Hall, a historic landmark designed by Arthur Brown, Jr. with a dome that is the tallest in the Country.

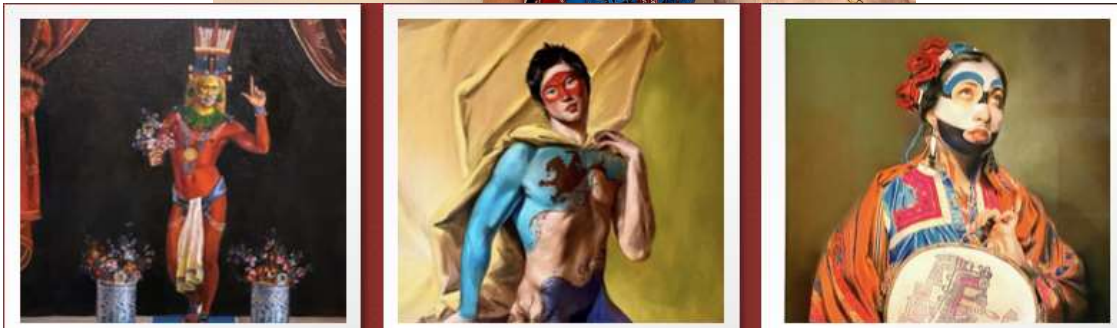

Our guide, Jim Haas, wrote the book, *"The San Francisco Civic Center"* that provides a definitive history of the center's office and cultural buildings. Jim will give you a tour and discussion of the origins, controversies and achievements that brought the area to what it is today. Jim has been involved with the rehabilitation and completion of Civic Center for the last 40 years. Link to his book is at: <https://unpress.nevada.edu/9781948908153/>

Event is limited to 16 people. The tour is free, but you must register and pay a \$20 fee to reserve your spot. The reservation fee will be refunded at the tour. A waitlist will be made available for cancellations. NO REFUNDS for cancellations after September 12. Register by clicking on: <https://maxsf.org/event-5397582>

Angel Island Excursion

Saturday, September 23, 9:00am - 5:30pm - Join MAX for a day trip to Angel Island, the largest island in the San Francisco Bay. A grass and woodland covered mountain island, [Angel Island State Park](#) offers spectacular views of Marin County, San Francisco, and the Golden Gate.

Angel Island has a great deal of history packed within its scenic shores. Two museums on the island are located at the [Angel Island Immigration Station](#). Called the Ellis Island of the West, Angel Island was the gateway for immigrants from the Pacific. More than a million immigrants from more than 80 countries were processed between 1910 and 1940, including 175,000 Chinese. Due to the Chinese Exclusion Act of 1882, most Chinese immigrants were detained for up to 90 days - and a few for almost two years. Due to an appeals process, most immigrants were eventually granted entry to America.

For a map of Angel Island, see the last page of the PDF available [here](#). **Arrive at the San Francisco Ferry Terminal by 9am, so that we can meet-up before boarding the ferry together.**

We'll catch the first [ferry](#) from San Francisco, departing at 9:25am from Gate C at the San Francisco Ferry Terminal, arriving Angel Island 9:55am. We'll have a guided tour of approximately one hour at the Immigration Station Detention Barracks at 11am. Hear the captivating stories of the immigrants waiting for entry to America, the processes they endured, their appeals, and the sometimes beautiful and sometimes despairing poetry they created while waiting. Attendees will have the choice of covering the 1.5 miles to and from the Immigration Station by foot or tram.

The event champions for this event are Bruce Cecil and Paul Munro. One will go with the group traveling by tram to the Immigration Station and the other with the group that walks there.

Bring a lunch to eat with the group at picnic tables near the arrival dock. We'll have lunch about 1:15pm. Beverages and light snacks are available for purchase at the snack bar near the arrival dock. However, due to damage during the winter storms, the restaurant on the island is closed.

For the Angel Island Tram Tour option, a tram tour of the entire island will leave at about 2:15pm (possibly a bit earlier), starting near the arrival dock. The tram covers the 5.5-mile Perimeter Road and will take about an hour and 15 minutes. If you sign-up for the tram tour of the island, plan to catch the 4:45pm ferry back to San Francisco.

Ferries depart the island for San Francisco at 3:00pm and 4:45pm, arriving at the Ferry Terminal approximately 30 minutes later. Bruce will be leaving on the 3:00pm ferry. Paul will be on the tram tour of the island and will leave on the 4:45pm ferry.

Whichever departure time you choose, arrive in plenty of time to make sure you don't miss your ferry of choice. Relax with a beverage (beer and wine available) at the snack bar while waiting for the ferry. ***If you separate from the MAX group and miss the 4:45pm ferry, your last chance to get off the***

the MAX group and miss the 4:40pm ferry, your last chance to get on the island that night will be a 5:20pm ferry to Tiburon, from which you would need to take an Uber, Lyft, or taxi to return to San Francisco.

Four ticket options are available. The primary two options are with and without island tram, and the remaining two just represent discounted price options for seniors over 65 years.

All ticket options include the round-trip ferry ride between the San Francisco Ferry Terminal and Angel Island, the guided tour of the Immigration Station, and the option to take a tram between the arrival dock and the Immigration Station (one way or both ways).

The "General plus Angel Island Tram Tour" ticket options also include the 2:15pm tram tour of the entire island perimeter.

Spaces are limited to 18 people, so sign up today! A waitlist will be made available for cancellations. NO REFUNDS for cancellations after Tuesday, September 12. Register at: <https://maxsf.org/event-5383893>

Site is in the Marin Headlands in the Golden Gate National Recreation Area. A Nike Veteran will provide a special tour for MAX that will take us back in history to learn about the nuclear arm race and America's defense during the Cold War. In response, the US Army constructed a nationwide system of almost 300 Nike missile sites with radar directed Nike missiles carrying nuclear warheads to meet incoming Soviet aircraft. The Site SF 88 is the only site to be restored and opened to the public.

Tour is accompanied with full narrative and stories of personal experiences of a Nike Cold War veteran. Tour includes seeing: a Nike Hercules Missile under assembly and near completion in the assembly room; the fueling station and assembly area for the Ajax Missile, the first Surface to Air guided missile; integrated fire control - missile and target tracking; security procedures; nuclear protocols; launch area and missile magazine with complete Nike Hercules Missiles, and; demonstration of launch positioning.
